We've prepared this table in recognition of all the people, starting with John Cooper and Derek Wilmot in 1957, who have organised quizwalks over the years and so helped to keep the unique pastime we all enjoy going for so long.

There is a single line of information in the table for each organiser. Organisers appear in ascending chronological order, based on the date of the *first* walk they organised.

It's been a long and painstaking process to build the table using Les Bradbury's archive material. Inevitably there are some uncertainties relating to the early days; these are indicated by the question mark symbol in the table. Wherever possible we've resolved discrepancies by talking direct to the organisers concerned. Our thanks to them for their co-operation.

The table is up-to-date as of 30th September 2007. We hope to see many new organisers making their first appearance in the table in the coming years.
